SELF-DISCHARGING WAGON

Letter designation	FACC
Construction type	411V
Gauge	1 435 mm
Length over buffers	11 190 mm
Bogie cenre spacing	6 650 mm
Overall width	3 114 mm
Height above top of rail	3 196 mm
Tare weight	21 900 kg
Loading opening length	6 870 mm
Loading opening width	2 830 mm
Discharge opening length	3 508 mm
Discharge opening clearance	variable
Height of the lower edge of the discharge chute above top of rail	300 mm
Capacity	30,6 m3
Maximum speed	80 km /h
Minimum curve radius	75 m
Number of axles	4

Permissible load depending on line class [t]

	A	B1	B2	C2	C3	C4	D2	D3	D4
80	34		49,5		58		49,5	58	

Remarks: unloading can be interrupted and metered; unloading possible from one or both sides as well as between the tracks.
